Commissioner Martin:

Mr. Chairman Powell and Federal Communications Commissioners,

I am the mother of 4 sons, two presently adults and two that are teenagers. The violence on televison programs has a horrible effect on influenctial teenagers, as they try to emulate what they see. As responsible parents, we've had to curtail much television viewing because of the vilest violence.

We do need to set higher standards for the content of the television programs, especially during the times our children are most likely to be viewing. Please set a higher standard for television programs, eliminating as much of the violence as is possible, especially shows that our children are likely to be watching.

Sincerely,

JoAnn Wright

Commissioner Abernathy:

Our nation is becoming a cesspool of violence. It is due to all the violence heard by our children. It comes from the violent music that is allowed over the airways. It is the violent programing on the TV, shows like cops, 24, America's Most wanted, and CSI to name a few. Its time to take back the airways with good holsum programing. Like Little House on the Prairie, The Wantons and shows of that stature. I cannot think of a program that I would let my child watch, in the current line-up of programing. So I plead with you the Federal Communications Commissioners to stop the violence, as it is corrupting our once great nation. It is making our children criminals, and violent beings. Also a more strict movie audience law should be in place and totally enforced with fines that will brake the backs of the offenders, Not fines that are a slap on the wrist, fines and Jail time (a minimum of community service (sweeping streets wearing a sign saying I am a FCC Offender comes to mind--although it will never happen in our, don't hurt their feelings society of today)). Thank you for all you can do to rid us of violent airways.

Sincerely,

Thurston Granger

Sexually explicit & violent scenes on television encourage unsafe & dangerous thoughts & ideas in children's heads. According to many, "the eyes are the pathway to the heart", so what goes in through the eyes influences what is acted upon by the heart. An extremely important fact to consider since there is an ever-increasing adolescent population in our prison system. With the percentage of families dealing w/ divorce w/ children involved, the custodial parent must deal w/ earning an income & raising children at the same time. Many are left unattended when they need supervision. Unfortunately, the computer & TV are often that object that occupies them, often unsupervised. What is left to develop out of this generation that is exposed to inappropriate scenes often at too young an age?? Only undesirable things are left to develop... Please help to filter these unhealthy scenes out of their lives! We all will benefit...your children & grandchildren and mine. Thank you for your time.

Commissioner Adelstein:

Dear FCC Commissioner,

As a mother of 2 young daughters, I am appalled at the excessive violence, sex, and bad language allowed on television. My children are allowed to watch very few programs -- some, not all, of the shows on children's networks such as Disney, Nickelodeon, etc., Animal Planet, and some TV Land shows (re-runs of old shows) are all that is safe for them to watch. I strongly believe that children come, over time, to believe that what they see on television is the norm for society, so allowing our children to be exposed to these damaging and negative elements on a daily basis is very detrimental to them.

It is frustrating to me to see the constant over-emphasis on sex and violence, all so that broadcasters and sponsors can make money off of the most impressionable and vulnerable segment of our society -- teenagers and young adults. Worst of all, our young children are becoming the innocent-bystander victims. I ask you to consider the critical responsibility that you, as a commissioner, have in American culture. The media has a tremendous influence on our society and it has gone swiftly downhill in recent years. Please impose the decency standards that the vast majority of Americans believe in. Thank you so much for your attention.
